Dated Ootacamund 19th May 1898

Sir

The Agent Southern Mahratta Railway recently reported that the down train from Hubli to Bangalore was detained for 78 minutes over booked time at Harihar on the morning of the 3rd instant in consequence of plague examination and he enquired if the Staff could not be strengthened I referred was made to Surgeon Colonel Benson who explained that the long detention in question was due to the unavoidable absence of the Sub Assistant Surgeon who was attending to his wife who was dangerously ill, and that the entire inspection of male passengers had devolved on the Hospital Assistant

2 Dr Benson forwarded a statement showing (1) that on the occasion in question there were 96 passengers (male and female) of whom 55 were Sepoys (2) that the number of passengers

varied

varied from 26 on the 12th/13th April last to as many as 191 on the 19th/20th idem and (3) that the daily average number of passengers was about 63. He represented that if the number of passengers continued to increase it might be necessary to strengthen the staff by the addition of a Hospital Assistant

3. On the 10 instant the Agent Southern Mahratta Railway, again wired that delays of 50 minutes were still occurring and he has been informed that the Resident is in communication with you on the subject.

4. I am now directed to ask you to do whatever may be possible to accelerate the inspections at Harihar and, if there are any men available, to augment the Inspecting Staff there. At the same time I am to say that an efficient inspection is of supreme importance – everything must be subordinated and if necessary, sacrificed to that – and Colonel Robertson is specially anxious that the present arrangements shall not be relaxed in any way
